HOWARD SMITH WHARVES

Green Events At Howard Smith Wharves

Since opening in 2018, Howard Smith Wharves have been passionate about sustainability.

It's in our DNA, so we've been implementing some exciting, game-changing initiatives to try and set a new benchmark in hospitality. We have achieved our initial target of diverting 96% of waste from landfill by segregating 17 different waste streams across all HSW venues.

We're thrilled to be the first in QLD to install a Goterra system, a groundbreaking insect powered waste management system which processes 600kg of waste every day. But we won't stop there – our goal is to one day become the most sustainable precinct on the planet.

We're pleased to now offer options to our event clients to reduce your impact with a range of green options for your next event.

GreenPower

GreenPower is government certified renewable energy. Paying for GreenPower means that HSW's energy retailer ensures renewable energy is added to the Australian grid on your behalf.

We offer the option to purchase GreenPower for your event, which is charged per venue per day:

Venue	Cost per day
Rivershed	\$170
Bougainvillea House	\$77
Green House	\$72

HSW Sustainability Staff

Have dedicated HSW Sustainability staff at your event to ensure between 90-98% of waste from your event is diverted from landfill.

Costs are based on hourly rates for dedicated sustainability staff to sort the various waste streams. We can also assist pre-event with advice on green initiatives for event delivery.

Plant Based Menu

By shifting to a plant-based menu for your event, you can aid in lowering your events carbon footprint and conserve resources.

Transport

Encourage your guests to make use of the various public transport options to arrive at Howard Smith Wharves to reduce carbon emissions.

Bus

Adelaide Street, Eagle Street, Ann Street and Brunswick Street are the closest bus stops to Howard Smith Wharves. View the map above for transport options, and don't forget your Go Card! Visit the TransLink website to plan your journey.

CityCat & CityHopper

Take a trip along the river to HSW. CityCat, CityHopper and Cross River ferries operate to and from the Howard Smith Wharves Ferry Terminal. Visit the TransLink website to plan your journey [HERE](#).

Train

Central Station in Brisbane City, and Fortitude Valley Station are the most convenient train stations to access the Howard Smith Wharves precinct. Please be prepared, all train stops require a walk to HSW. Visit the TransLink website to plan your journey.
